- Cancel a booking

[Version 4](#)

Edits in the document, correction so that it refers to the correct Section

The team (not a single member) must research available frameworks and decide on the framework the team is going to use, before the first submission. The rationale for the choice of the framework must be documented in [Section 5.5](#) (not 6.4) of the PMP. If the team has problems choosing a framework (or reaching consensus within the team) before the first submission please ensure that this is documented in the minutes as this is part of the process.

your PMP must justify why you chose the SDLC in Section 4.4 (not 5.4) of the PMP.
